

4m3 Liquid storage tank

To store liquids on location we have this steel tank in our rental program. This tank, a 4m3 storage tank, is specially made for the oil and gas industry.

The tank is designed for atmospheric use and is equipped with a 2" Weco fig.1502 female inlet connection and a 3" Bauer coupling outlet with butterfly valve. On top of the tank is a hinged 1,5" vent pipe and two lockable inspection hatches.

Technical specs Tank
