

B.C.S.

Bakker Certification System

 Go green, keep it on the screen

The time of files, stacks of papers on the desk and most annoying of all: the long time search for equipment certification belongs to the past.

At Bakker Oilfield Supply Coevorden we offer you the possibility of maintaining, certifying and keeping your certificates stored safely in our database.

Database

In addition to this we can provide you with B.C.S. log-in credentials where you get exclusive access to our online-database where you can:

- Download most recent equipment certification
- See when equipment needs new certification

View reports of amongst others :

- Pressure tests
- Magnetic Particle Inspection
- Manufacturer data book (COC)

Our Maintenance & Inspection team will give you an early notice, when your equipment needs to be maintained and inspected, by e-mail notification.

Want to know more about our certification service? Do not hesitate to contact our maintenance and inspection team on number +31(0)524 599 666 or E-mail: sales@bakkergroep.nl
