Sound wall base block

The blocks are originally designed as base blocks for our Soundwall and guarantee a safe and solid installation of our Soundwall system.

The blocks however, can also be used as counterweight or ballast blocks.
The metal frame, is filled with solid concrete and has a total weight of 10.000 kg.

The design and the dimensions make it an easy to handle item.
All blocks are equipped with forklift pockets and secured lifting points.

Technical specifications

- Size LxWxH : 3,5m x 2,5m x 0,5m
- Weight : 10.000 kg
