## Bakker Certification System

 Go green, keep it on the screen

The time of files, stack of papers on the desk and most annoying of all:  
**the long time search for equipment certification**  
 belongs to the past!

Bakker Oilfield Supply Coevorden offers you the possibility of maintaining, certifying and keeping your certificates stored safely in our database.

### Bakker Certification System

Data overzicht  
 0 nu geselecteerde records.

**Database**

In addition to this we can provide you with Bakker Certification System log-in credentials where you get exclusive access to our online-database where you can:

- Download the most recent equipment certification
- See when equipment needs new certification

View reports of amongst others :

- Pressure tests
- Magnetic Particle Inspection
- Manufacturer data book (COC)

**So, this is how it works ..**

When you decide to get your equipment certified and/or maintained. You'll standardly receive your own personal B.C.S. log-in credentials, which enable you to have all equipment certifications and maintenance reports easy accesible and on site at all times.

Customers who brought in equipment for maintenance and certification in the past year, can expect an e-mail in the upcoming months with the notifaction that the certification for their equipment is almost expired.

Please contact our Maintenance & Inspection team for more detailed information on number +31 (0)524-599 666 or e-mail [sales@bakkergroep.nl](mailto:sales@bakkergroep.nl)
