## **Rental Equipment Special**

- **Back Pressure Valve**
- **High Pressure Separator**
- **High Pressure Equipment**  
Flange crossovers / adapters - Plug valves - Elbows - Choke Tees

### **Back Pressure Valve**

The Bakker Oilfield Supply Control Valve is available in the rental fleet. The Valve is designed to control the flow of gas or liquids. It is also commonly used as a backpressure valve and is totally adjustable with the digital controller.

The complete unit is Ex certified. The transformer generates 220V in and 24V out. In case any power failure occurs an installed back up battery guarantees a power supply for approximately 4 hours.

### **High Pressure Separator**

The HP-Separator in the rental fleet of Bakker Oilfield Supply is specially designed for the separation of liquids and gas in the oil, gas and geothermal industry. Common liquids like water, glycol and natural gas can be separated.

The HP Separator is also used for protection of downstream equipment like compressors and flow meters. The Separator is capable of separating sand and other solid parts. Therefore the unit is also commonly used as a gas wellhead separator.

Bakker Groep Coevorden B.V. can also be of service when specialised personnel is required for any rig up, rig down or operator job. We use a Competence Management System which secures the competence level of our technical employees. We are able to supply you with the right man for the job.

### **High Pressure Equipment**

Bakker Oilfield Supply has a large number of High Pressure Equipment available in the Rental fleet. Anything from 1" up to 6" with the various weco connections 106, 1002 and 1502 are available for standard service or sour gas installations.

### Flange crossovers / adapters

Several sizes and pressure ranges are available. For example:

- 4.1/16" 10K x 3.1/16" 10K
- 4.1/16" 10K x 4.1/16" 5K
- 5.1/8" 5K x 4.1/16" 10K
- 3.1/16" 10K x 3.1/8" 5K
- 4.1/16" 10K x 3.1/8" 5K

### Plug valves

Weir SPM® high pressure plug valves are tough, field proven-units that provide dependable service for applications such as cementing, fracturing and acidizing, coiled tubing, and sand control. Available in 1", 1" x 2", 1½" and 2" sizes and in pressure ratings up to 15,000 psi NSCWP. Weir SPM 3" and 4" plug valves are available in pressure ratings to 20,000 NSCWP.

### Elbows

SPM® manufactures a quality line of high-pressure integral union connections in a broad range of configurations and sizes from 1" through 4" and in pressure ratings to 20,000 psi NSCWP\*.

### Choke Tees

Adjustable and positive choke tees are primarily used in choke manifolds, flow thru manifolds and test manifolds. Various forged-body configurations are available in 2-inch and 3-inch sizes, each rated at 15,000 psi NSCWP. Chokes are also available in sour gas configurations.
